The Department of Chemistry and Biology "A. Zambelli":

• Founded in 1994 by Prof. Adolfo Zambelli, former collaborator of the Nobel Laureate Giulio Natta
• More recently, the Department has expanded into the field of Biology, which in 2011 has led to the current Department of Chemistry and Biology
• About 50 faculty staff members + 50 Ph.D. students and post-doc researchers
• **3 degree programs** (Chemistry, Biological Sciences and Environmental Sciences) and **3 master degree programs** (Chemistry, Biology and Environmental Sciences)
• **1 Ph.D. program** in Chemistry, Biology and Environmental Sciences with **1/2 international places reserved to foreign candidates**
• **Erasmus programs for study and traineeship**

Past incoming students from Rennes to UniSA:
- Wilfried Poudroux (at CNR-ISA, Avellino)
- Kevin Muller (at CNR-ISA, Avellino)
- Miguel-Angel Hernandez
- Clara Emery

http://www.dcb.unisa.it/en
Research activities at the Department of Chemistry and Biology "A. Zambelli":

- Polymers Science and Technology
- Organic Chemistry
- Computational Chemistry
- Analysis of environmental and ecologic systems
- Microbiology
- Biochemistry and Molecular Biology
- Cell biology
- Nutrition and Human physiology
- Computational Biology
